### Message from the Guest Editors

Dear Colleagues,

The International Symposium on Frontiers of Road and Airport Engineering (iFRAE) 2021 will be hosted on July 12–14, 2021, by Delft University of Technology, the Netherlands

The theme of the iFRAE 2021 is to promote research in the field of “Circular, Sustainable and Smart Airport and Highway Pavements” and is dedicated to the state-of-the-art and state-of-practice areas of long-life and circular materials for sustainable, cost-effective smart airport and highway pavement construction. This symposium will facilitate the exchange of new ideas in these fields among academicians, engineers, scientists, and practitioners.

The aim of this Special Issue of *Materials* is to provide researchers and practitioners a unique and rewarding opportunity to present and forward new and emerging ideas. Participants at the iFRAE 2021 are highly encouraged to submit papers in this Special Issue for possible publication in *Materials*. Those not attending iFRAE 2021 are also warmly invited to submit a paper to this Special Issue.

an Open Access Journal by MDPI

## Editor-in-Chief

### Prof. Dr. Maryam Tabrizian

James McGill Professor,  
Professor of Biomedical  
Engineering, Professor of  
Bioengineering, Professor of  
Experimental Surgery,  
Department of Biomedical  
Engineering, Faculty of  
Medicine/Faculty of Dentistry,  
Duff Medical Science Building,  
3775 University Street, Montreal,  
QC H3A 2B4, Canada

## Message from the Editor-in-Chief

*Materials* (ISSN 1996-1944) was launched in 2008. The journal covers twenty comprehensive topics: biomaterials, energy materials, advanced composites, structure analysis and characterization, porous materials, manufacturing processes and systems, advanced nanomaterials, smart materials, thin films and interfaces, catalytic materials and carbon materials, materials chemistry, materials physics, optics and photonics, corrosion and materials degradation, construction and building materials, materials simulation and design, electronic materials, advanced and functional ceramics, metals and alloys, general. The distinguished and dedicated editorial board and our strict peer-review process ensure the highest degree of scientific rigor and review of all published articles. *Materials* provides a unique opportunity to contribute high quality articles and to take advantage of its large readership.

## Author Benefits

**Open Access:**— free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [Ei Compendex](#), [PubMed](#), [PMC](#), [CaPlus / SciFinder](#), [Inspec](#), [Astrophysics Data System](#), and many other databases.

**Journal Rank:** [JCR - Q2 \(Materials Science, Multidisciplinary\)](#) / [CiteScore - Q2 \(General Materials Science\)](#)
